There were no new applications to consider.
- a) **N/100/01634/21– Land adjacent to Nutty Cottage.** – This application had been reviewed and commented on at the last meeting. An update was presented by Cllr Grist regarding Highways visit to the site. Although highways had recognised some issues regarding the roadway to this proposed site it was considered these could be mitigated by the registration/reception area being well down the track. No specific issue was seen with the entrance itself or a need to have a splayed opening to the site. Highways did not see any requirement to reduce the speed limit on the main road as considered the bend should automatically slow traffic down. A potential increase in traffic in this area was not seen as a problem from Highways perspective but an informal bus stop would be situated on the roadway near to the post box to encourage the use of public transport by visitors to the site. ELDC were broadly happy with the application subject to a few conditions being stipulated.

initially be removed and stripped back to the plain wood. Depending on what condition the board was found to be in a decision could be taken on the next steps. It was noted that LMS could undertake cnc sign writing and highlight this in whatever fonts/colours requested. Cllr Stephenson was asked to see if he could obtain an original copy of the village map for amendment/inclusion into a new noticeboard.
